

### Test Point Description

| Test point                           | Test module | Test parts             | Test point description                                    |
|--------------------------------------|-------------|------------------------|-----------------------------------------------------------|
| MGI TERAHERTZ BLOWER Model : MGI-083 |             |                        |                                                           |
| 1                                    | ---         | Outer shell            | Red coating                                               |
| 2                                    | ---         |                        | Black plastic outer shell                                 |
| 3                                    | ---         |                        | Transparent tape                                          |
| 4                                    | ---         |                        | Black plastic inner shell                                 |
| 5                                    | ---         |                        | Milky white plastic keys with silver electroplating layer |
| 6                                    | ---         |                        | Black coating                                             |
| 7                                    | ---         |                        | Metal sound net                                           |
| 8                                    | ---         |                        | Plastic ring with silver electroplated layer              |
| 9                                    | Heater      | ---                    | Mica plate                                                |
| 10                                   |             | ---                    | Heating wire                                              |
| 11                                   |             | ---                    | Copper metal terminal                                     |
| 12                                   |             | ---                    | Solder                                                    |
| 13                                   |             | Protector              | Metallic shrapnel                                         |
| 14                                   |             |                        | Pure copper sheet                                         |
| 15                                   |             |                        | Brass sheet                                               |
| 16                                   |             |                        | Metal contact                                             |
| 17                                   |             |                        | Black plastic shell                                       |
| 18                                   | ---         | Negative ion generator | White label                                               |
| 19                                   | ---         |                        | Black plastic shell                                       |
| 20                                   | ---         |                        | Red wire jacket                                           |
| 21                                   | ---         |                        | Black wire jacket                                         |
| 22                                   | ---         |                        | White wire jacket                                         |
| 23                                   | ---         |                        | Black heat shrink tubing                                  |
| 24                                   | ---         |                        | Black brush                                               |
| 25                                   | ---         |                        | PCB                                                       |
| 26                                   | ---         |                        | Solder                                                    |
| 27                                   | ---         | Fan                    | Black plastic shell                                       |
| 28                                   | ---         |                        | Milk white plastic fan blade                              |
| 29                                   | ---         |                        | Copper bearing                                            |
| 30                                   | ---         |                        | Metallic shell                                            |
| 31                                   | ---         |                        | Metallic circlip                                          |
| 32                                   | ---         |                        | Black magnet                                              |
| 33                                   | ---         |                        | Metallic shaft                                            |
| 34                                   | ---         |                        | White plastic sheet                                       |
| 35                                   | ---         |                        | Copper ring                                               |
| 36                                   | ---         |                        | Silicon lamination                                        |
| 37                                   | ---         |                        | Enameled wire                                             |
| 38                                   | ---         |                        | Copper metal terminal                                     |
| 39                                   | ---         |                        | Milk white plastic bottom shell                           |
| 40                                   | ---         |                        | Brass sheet                                               |
| 41                                   | ---         |                        | Pure copper sheet                                         |

Any report having not been signed by authorized approver, or having been altered without authorization, or having not been stamped by the "Dedicated Testing/Inspection Stamp" is deemed to be invalid. Copying or excerpting portion of, or altering the content of the report is not permitted without the written authorization of AGC. The test results presented in the report apply only to the tested sample. Any objections to report issued by AGC should be submitted to AGC within 15days after the issuance of the test report. Further enquiry of validity or verification of the test report should be addressed to AGC by agc01@agccert.com.
