Lens Height = 3.5 cm / 35 mm

## Remarks

For optimal results, it is recommended to wear 8-10 hours per day, and it is still suggested for regular check-up to an ophthalmologist should a complaint occurs.

The default lenses of these glasses are NEUTRAL . So if the consumer has far/near sighted, astigmatism, etc, it is recommended to change the lens of the glasses according to their eye complaints at the nearest optical store.

## How to take care / clean MGIClub IonSpec Glasses

- For the glasses frame, you can just wipe it with a wet cloth and then dry it with a clean cloth.

- For the lenses, you can use mild soap or special cleaning liquid use for lenses (can be purchased at optical shop). Then wipe using a soft clean cloth.

- Avoid contact with salt/sea water or anything that contains alcohol (perfume, sanitizer, etc)

- Do not place the glasses under direct hot sunlight or place such as car dashboard, motorcycle seat, and do not dry it under the sun. Store in a cool dry place.
