MGICLUB EMS FOOT MASSAGER

Do you often experience body stiffness, cramps, tingling, aches, and pain?

Or experienced an injury and currently undergoing rehabilitation?

What is NANO EMS FOOT MASSAGER?

Nano EMS Foot Massager is designed with a foot mat with EMS technology as an electrode to stimulate the soles of the feet, heels, Achilles tendon and calf muscles for muscle contraction and relaxation which especially helps improve blood circulation.

Embedded with 4 ingredients (Negative Ions, Far Infrared, Germanium & Nano Silver) for your health and well-being.

What is EMS Technology ?

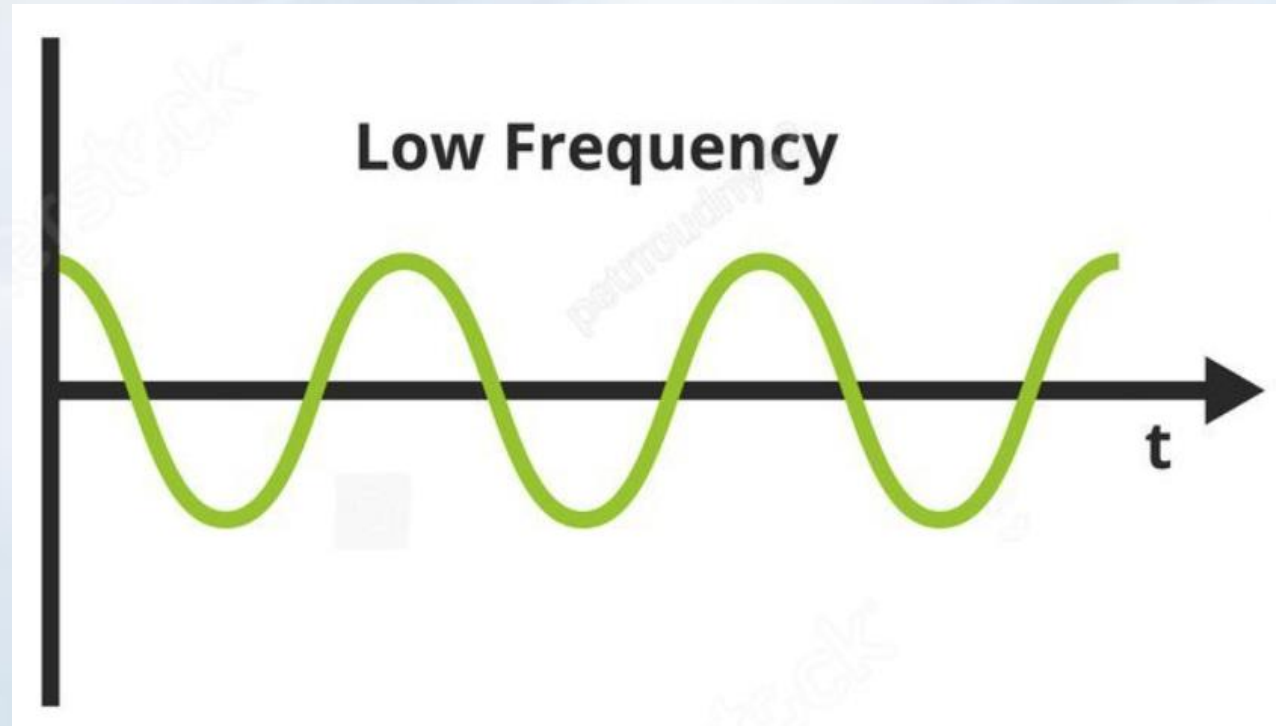

Electrical Muscle Stimulation (EMS), also known as neuromuscular electrical stimulation (NMES) is triggers muscle contractions using electrical impulses.

These impulses mimic potential reactions originating from the Central Nervous System, causing the muscles to contract. EMS has been proven to be very effective as a proactive tool for strengthening muscles.

Benefits of EMS?

- Helps strengthen muscles
- Helps the rehabilitation process
- Helps prevent muscle atrophy
- Helps increase blood circulation
- Helps relax muscles Helps tighten muscles

Product Feature (1)

The low frequency is a special electricity with regular rhythm. According to suitable power and speed on body by low frequency, which make a rhythm and sort impetus on body. The softness of low frequency are as same as massage effect like pressure, pinch and percuss by human hand.

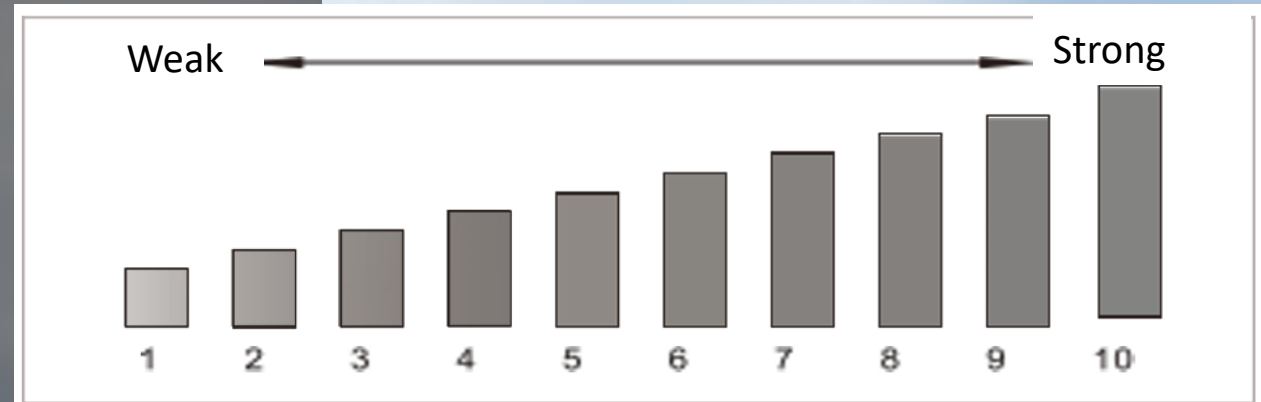

Product Feature (2)

6 Modes selection with simple operation.

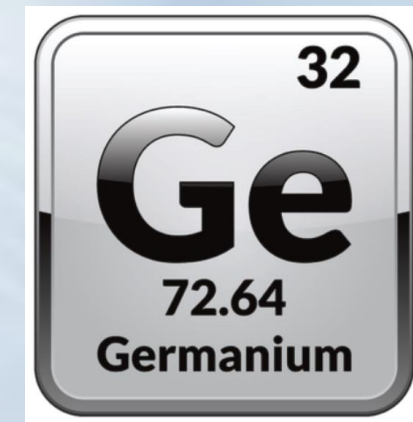

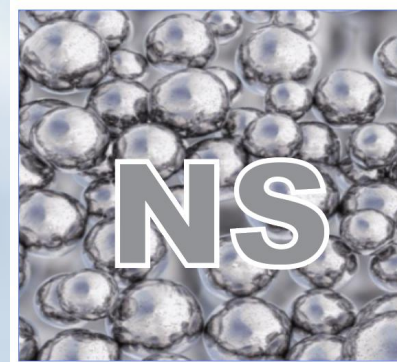

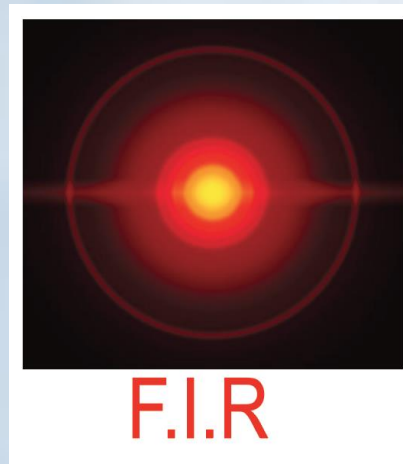

It will turned off automatically after 15 minutes, when you forget to switch off.

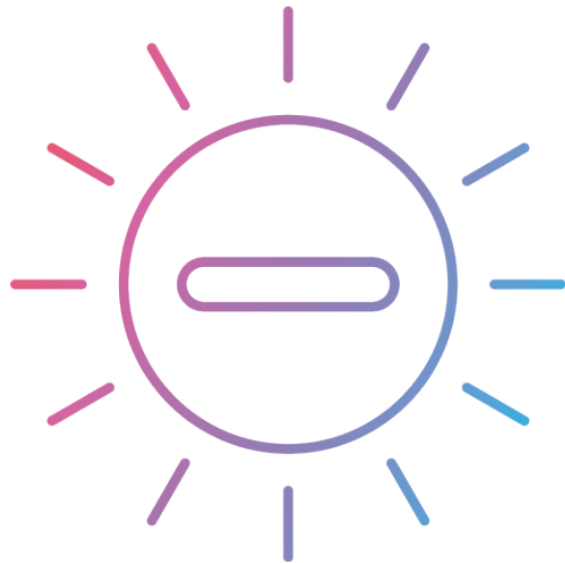

- Mode 1
- Mode 2
- Combined Mode 1 + 2
- Mode 3
- Mode 4
- Combined Mode 3 + 4

Stimulation intensity is divided into 10 levels (intensity 1-10). Use low intensity when first used. Please adjust after getting used to the low intensity.

**Beside EMS Technology,
There are 4 contents included with Nano technology embedded into the mat**

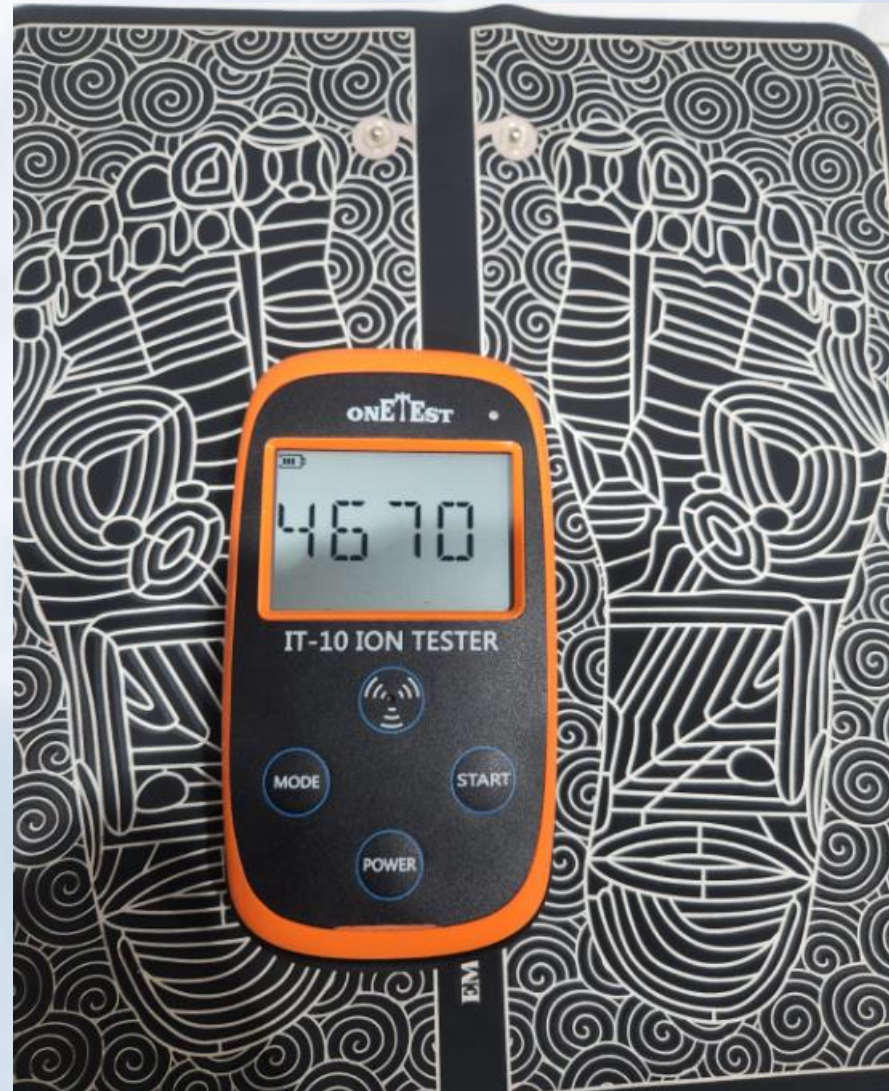

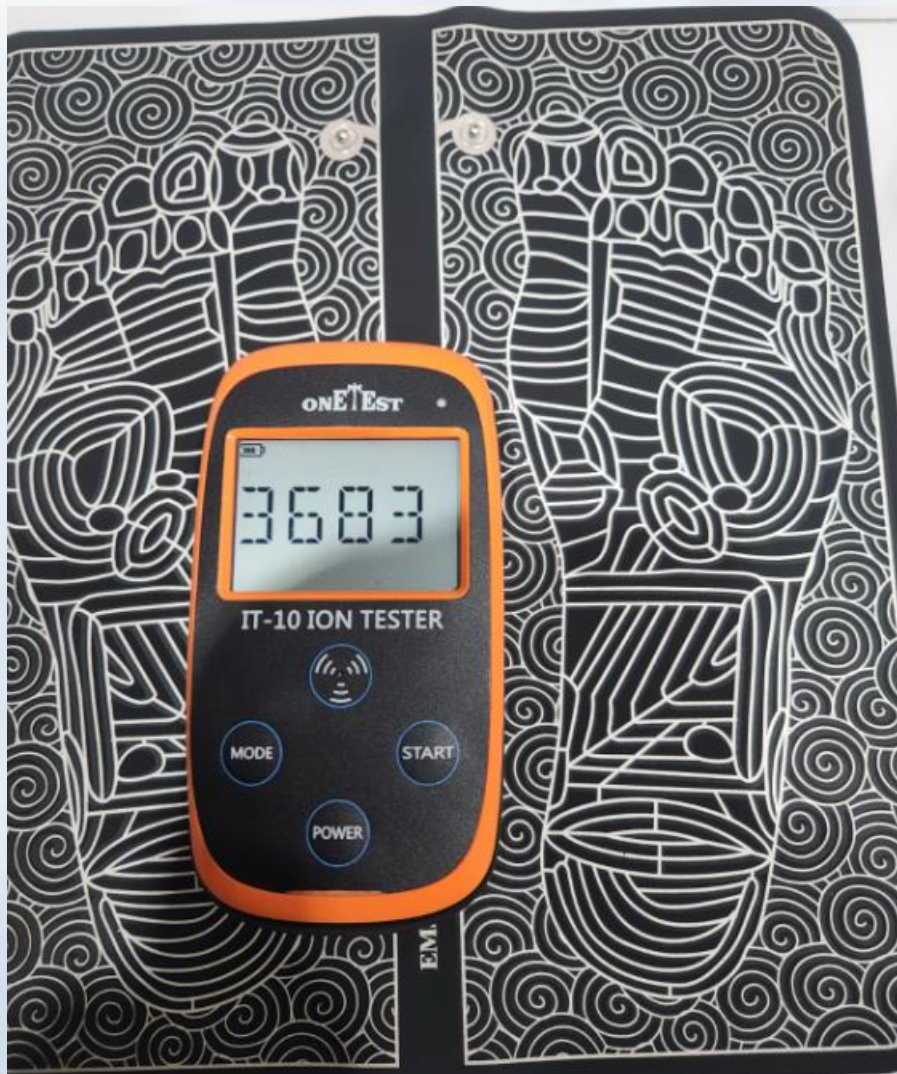

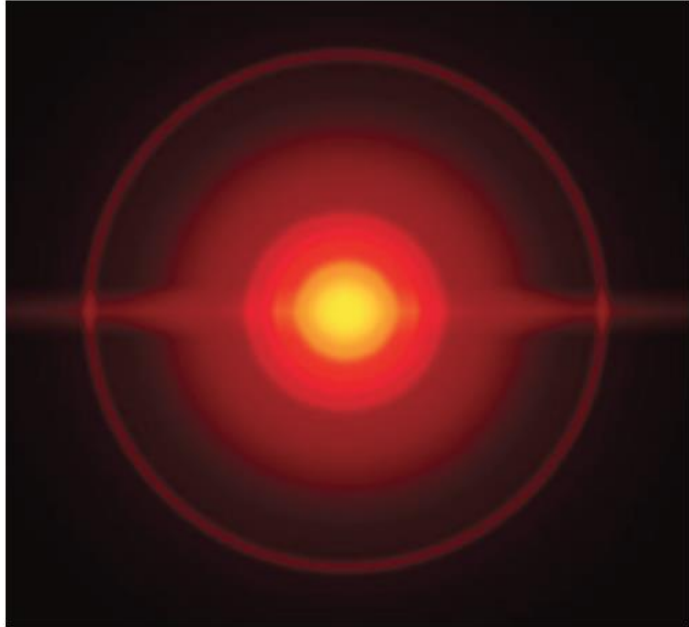

Negative Ion

Vitamins in the air, **Negative Ion** content can help provide oxygen to all glands and nerve cells along the reflexology pathway on the soles of the feet. Helps reduce pain, soreness, tingling and aching and helps transmit impulse stimulation to all the nerves in the soles of the feet to help maintain the health of the body's organs and nerves in the reflexology pathway.

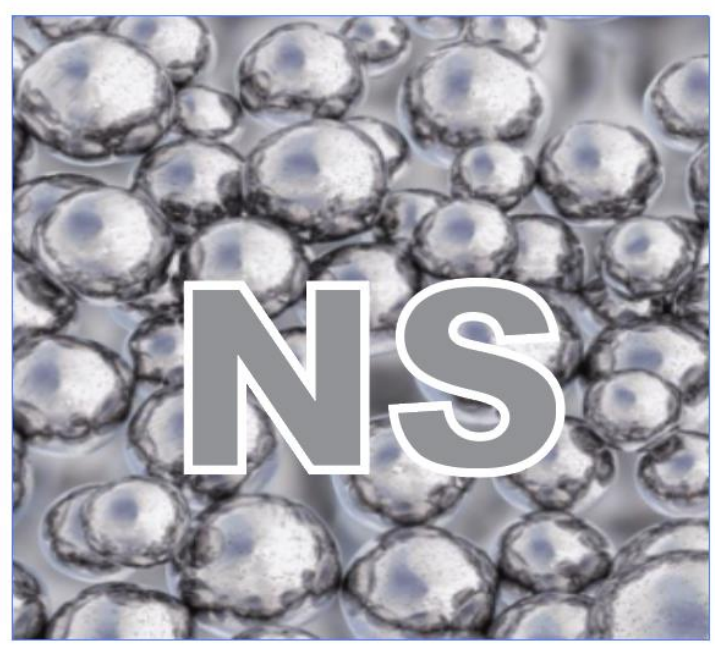

NEGATIVE ION LEVEL TEST (in range 3000 – 5000)

F.I.R

Far Infra Red works like sunshine in the morning. It helps in boosting blood circulation on the soles of the foot, thus speeding up the recovery and detoxification process.

Nano Silver is very effective in killing fungi, germs, bacteria, viruses more than 600 species up to 99.9%, prevent infection, and help in boosting cell regeneration. Nano Silver that knitted in the fabric also able to help remove bad odors on the soles of the foot.

Germanium has an oxidative dehydrogenation capacity, regulate the immune system, reducing risk of cancer, boosting your immune system, prevent osteoporosis, anti premature ageing, hypertension, restore fatigue and prevent anemia.
