

MGI FABRIC IONIZED MASK

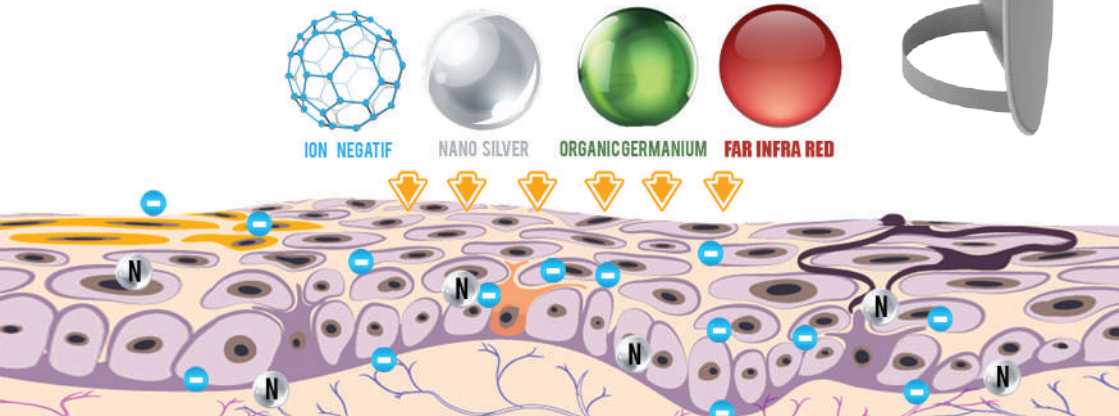

MGI FABRIC IONIZED MASK is The First and Only One in the World mask that made of fabric with 4 elements equipped with 72 types of minerals and can be use repeatedly

MGI - Fabric Ionized Face Mask. This face mask is equipped with negative ion / anion, far infrared, germanium, bamboo charcoal layer and nano silver which can kill up to 99.9 % bacteria, germs, virus, and fungi. This mask acts as an assisting tool to supply more oxygen to facial or skin pores. It helps your face appear younger and glowing skin.

4 Elements

How MGI – Fabric Ionized Mask Works

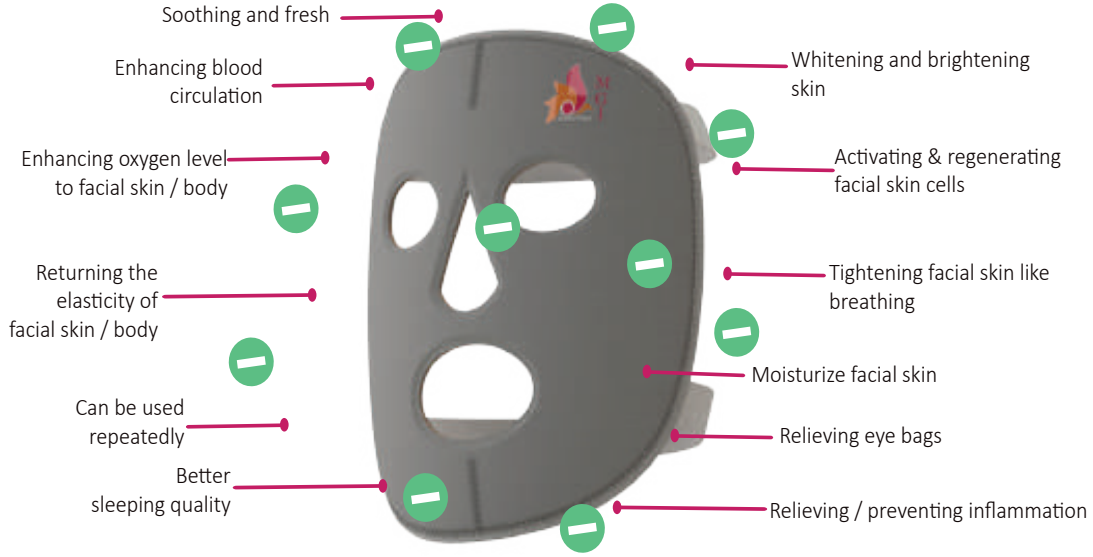

Negative Ion, **Nano Silver**, **Organic Germanium**, and **Far Infrared (FIR)** contained in the mask permeate facial pores until the deepest layer of skin. Skin gets tight, soft, and glowing all day.

How to use MGI – Fabric Ionized Mask:

Wash your face, then cover your face with MGI Fabric Ionized Mask. Put on the mask by attaching the rubber hook to the back of the head. Masks can be used throughout the day. After use, remove and can be stored again.
